Business Verticals

Staff Augmentation	Turn-Key Projects	Product Development
<i>Insystech provides highly skilled professionals to meet our clients' staffing needs. We are proud of the fact that our consultants are excellent communicators and problem solvers with the ability to support the client's in their mission.</i>	<i>Insystech executes turn-key solution development projects on firm-fixed price, including creation of mobile applications, web applications, business intelligence systems and more. We have helped numerous customers find the solutions that best meet their needs, whether it is customization of a COTS system or a custom build.</i>	<i>Insystech has an active R&D group that develops state-of-the-art mobile apps and web applications for B2B and B2C. The mobile apps are typically published in the Google Play and Apple iTunes stores and the web applications are hosted in the Cloud and offered as SAAS Solution.</i>

Business Domains

Education	Health Care	Federal Government	State & Local Government	Commercial
<i>We continue to serve more than 500,000 students in various states for more than 15 years. We have in-depth understanding of Federal and State programs that affect the education industry and we work with both SEAs and LEAs to help develop and implement solutions.</i>	<i>Our highly experienced team of IT Management consultants have led a number of major projects, such as configuring systems for new hospitals, implementing health information system upgrades, developing HL7 messaging/integration, enterprise content management and BI solutions.</i>	<i>Insystech is an SDB, adept in executing Federal Contracts through GWACs, IDIQs, GSA Schedules and other contract vehicles. We have access to excellent resources with various types and levels of clearances ready to support DOD, DHS and other Federal Clients.</i>	<i>Our flexibility, high quality, and reasonable costs helps state and local governments meet their needs, within their budgets. We have had Contract Vehicles to provide services to State and Local Government for more than 15 years.</i>	<i>Through excellent strategic and tactical relationships Insystech continues to work with many Commercial entities improving their ROI in IT. Insystech has developed and deployed several commercial mobile and web apps using leading edge technologies and tools.</i>
